

Asad Ullah (Mirza Asad)

Data Scientist & Frontend Developer

Sargodha, Pakistan | asadmirza960i@gmail.com | linkedin.com/in/mirza-asad-dev | github.com/asadmirza-dev

PROFILE SUMMARY

Data Science student and Frontend Developer with a passion for building responsive, high-performance web applications. Skilled in React and Tailwind CSS, with a strong focus on crafting smooth, engaging user interfaces using GSAP animations. Possess foundational knowledge of the MERN stack, enabling end-to-end development from interactive front-end experiences to functional back-end systems.

EDUCATION

BS Data Science — University of Sargodha (UOS)

In Progress

Intermediate in Computer Science (ICS)

BISE Sargodha

Matriculation (Science)

BISE Sargodha

TECHNICAL SKILLS

Frontend

- HTML, CSS, JavaScript
- React
- Tailwind CSS
- GSAP (Animations)

Backend / Database *(Foundational)*

- Node.js
- Express.js
- MongoDB

Tools

- VS Code
- Git & GitHub
- Vercel

PROJECTS

Personal Portfolio Website

React, Tailwind CSS, Vercel

- Designed and developed a fully responsive personal portfolio to showcase skills and projects
- Deployed on Vercel for fast, reliable hosting

E-Commerce Frontend with Cart Functionality

React, Tailwind CSS, Context API

- Built a responsive e-commerce storefront with product listings, filtering, and detail views
- Implemented a fully functional shopping cart with add/remove items, quantity updates, and live price calculation
- Managed global cart state using React Context/hooks for a smooth, persistent shopping experience

Twitter Clone

React, Tailwind CSS, MongoDB, Express

- Developed a social media clone replicating core Twitter features: post creation, feed, likes, and comments
- Built a dynamic, component-driven UI with real-time-style feed updates and responsive layout
- Connected front end to a MongoDB/Express backend for persistent posts and user data

Full-Stack Form Handling System

React, Express, MongoDB

- Built a full-stack application to capture, validate, and store form submissions
- Integrated a React front end with an Express/MongoDB backend for seamless data flow

Interactive Quiz Application

Vanilla JavaScript

- Developed a dynamic, interactive quiz app with real-time scoring and feedback
- Implemented core logic and DOM manipulation using vanilla JS
